PROJECT

Computer-Related Website

- Currently building a computer-related website using HTML, CSS, Bootstrap, and JavaScript. The site will feature tech news, product reviews, and tutorials with a clean, responsive design.
- Bootstrap is used for responsive layouts, while JavaScript enhances interactivity and user engagement. Aiming to provide an informative and seamless experience for tech enthusiasts.

Replication Of Zomato

- Developed the homepage of a Zomato clone using HTML, CSS, Bootstrap, and JavaScript. Created a responsive, mobile-first layout with restaurant categories, search bar, and dynamic listings.
- Customized styles to align with Zomato's design aesthetic for a seamless user experience. Added interactive features like hover effects and filters to enhance usability and navigation.

Portfolio

- I'm a passionate front-end developer skilled in HTML, CSS, JavaScript, and React. I specialize in building responsive, interactive, and visually appealing web applications.
- My projects focus on enhancing user experience through clean design and seamless functionality. Always eager to learn and grow, I aim to contribute to impactful, innovative web solutions.
